VANGUARD MEDICAL
AT THE FOREFRONT OF SERVICE

Experience in Medical Service Industry

Vanguard Medical was founded in 2012 as a surgical instrument repair company. In 2016, our company earned Minority-Owned Small Business certification. Our president and founder saw the need to provide superior customer service and as a result of our commitment to meeting our customers' expectations, the company experienced rapid growth and continues to grow to this day.

Over 21 years doing Medical Equipment Repair and Detailed Cleaning Service in Washington DC, Maryland and Virginia Hospitals.

We have successfully been providing services to over 300

hospitals, clinics, surgery centers and doctors offices in Northern Virginia, Maryland, Washington, DC and Pennsylvania.

25+ Years of
Experience

20+
Customers

50+ Expert Staff

OUR BEST SERVICES

Our company is able to serve many areas of healthcare facilities at the same time thanks to our on-demand services compared to the competition. In other words, we are a company that offers many services from instrument repair to detailed cleaning and biomedical technology.

- Instrument Repair
- Detail Cleaning
- Biomedical Services
- ETO Sterilization
- Building Repair
- Temporary Services

EQUIPMENT FOR SALE

FLEXIBLE SCOPES

OLYMPUS LF -GP W500026

MODEL: LF-GP

#001

PRICE: \$3.795

REFURBISHED

Part of the Olympus Porta View-LF series, the LF-GP is a complete all-in-one portable solution for emergency, bedside, OR and ICU tracheal intubations. Compatible with single-lumen endotracheal tubes with an internal diameter as small as 5 mm, as well as 37 Fr double-lumen tubes. or larger, the LF-GP is the most versatile viewer in the PortaView-LF series.

The telescope's excellent optics and integrated miniature light source result in bright, high-resolution images for observation. Additionally, the LF-GP offers an expanded field of view size (2.2 times larger than the LF-2) for even greater image detail.

OLYMPUS LF -TP 2625256

#002

MODEL: LF-TP #002

PRICE: \$3.795

REFURBISHED

The sleek, lightweight design of the LF-TP fiberscope makes it highly portable for use in emergency situations, at the bedside, in an operating room, or in an ICU. A large 2.6 mm suction channel increases the endoscope's ability to suction even very viscous sputum. With an outer diameter of only 5.2 mm, the LF-TP is compatible with single-lumen tracheal tubes with an inner diameter of 6.0 mm or more.
